

Cold Climate Grape IPM News

Lorraine P. Berkett, IPM Specialist

August 22, 2006

A Quick Reminder

Just a quick reminder that the **fourth week in August** is the time to scout your vineyard to determine the need to manage **Grape Berry Moth** and **Leafhoppers**. Please see the June 2 issue of the Cold Climate Grape IPM Newsletter for further information and links to scouting methods. (<http://pss.uvm.edu/grape/newsletters/2006/GrapeIPMNewsJune022006.pdf>)

Hope to see you at the tour of Champlain Valley Vineyard on Sept. 8th ! As noted in the announcement, Dr. Jim Travis from Penn State University will be there to discuss factors that impact grape production. For details, please see:
