

WATCH FOR GREEN INDUSTRY SURVEY
***YOUR* input is critical**

Whether you are a greenhouse or nursery grower, landscape professional, arborist, florist, garden center owner, or other green industry professional your input is critical to the next New England Environmental Horticulture Economic Impact Study.

If you receive the survey in August, please take 10 minutes to fill it out. To keep the study current and useful, we need updated numbers on production, the important services we provide, the many people we employ, environmental impacts, and other key issues. Thank you in advance for your time!

Dr. Leonard Perry, Professor
Horticulture, University of Vermont

Dr. Lois Berg Stack, Professor
Horticulture, University of Maine

The New England Environmental Horticultural Economic Impact Study is sponsored by the New England Nursery Association with support from New England Grows and six other New England nursery and landscape associations. The results from our most recent survey can be viewed online (pss.uvm.edu/ppp/nesurvey/index.htm).
